THE LATE LARCENY OF WINE,-William Fisher, who was arrested a few days ago for stealing a box of claret, plead guilty yeater-day morning before Judge Lowe, and was sentenced to hard labor at the County Jail for a term of three months.

AMOUNT OF FINES COLLECTED IN THE POLICE COURT DURING THE MONTH OF AUGUST,—During the month ending yesterday, \$1,419 31, in fines and costs, were collected in the Police Court, of which \$852 42 were from city cases, and \$566 89 from cases in which the State was the prosecutor.

FIRE YESTERDAY.—Yesterday afternoon, about half-past one, a fire broke out in the residence of J. C. Ratcliffe, on the southwest corner of Central-avenue and Sixth-street, which originated in a defective flue. The fire department was promptly on the ground, and the fire was extinguished without any extensive damage.

PROCEEDINGS OF THE COUNTY COMMISSION PROFESINGS OF THE GOUNTY COMMISSION-RRS.—The County Commissioners, at their regular diurnal session, yesterday morning discharged M. McCune, J. C. Bryan and P. McCune from the County Jail for the reason that they had no means wherewith to pay the fines and costs charged against them. No other business was transacted. No other business was transacted.

Bell and Everett Pole-Raising in the Fourth Ward.—The partisans of Bell and Everett in the Fourth Ward have made arrangements to raise a pole in honor of their candidates next Tuesday evening, at the corner of Front and Elm. A hand of music and good speakers will be in attendance, and we doubt not, if a good political time can be had, they will have it upon this occasion.

A CINCINNATI BRUISER MURDERED IN ST. A CINCISNATI BRUITER MURDERED IN ST.
LOUIS.—A man well-known in this city as
William Clifford alias John W. Phillips,
was murdered in St. Louis a few days ago
by a fellow-bruiser, named Humphrey Davis
alias Frank Humphreys. The parties quarreled in regard to something, it is not definitely known what, when the latter stabbed
the former to the heart, made his escape, and
has not since been discovered.

BURGLARY IN NINTH-STREET.—The residence of Mrs. Kilot, at No. 53 West Ninth-street, was feloniously entered night before last and robbed of a porte-monnaic containing \$30, a small quantity of clothing and a silver watch. The building was occupied as a boarding-house, and the geods that were stolen were the property of J. W. Sunderlin. A number of rooms were entered and ran-sacked, but the burglar escaped without de-tection. tection.

TWELFTH WARD DEMOCRATIO MEETING. The Democrats of the Twelfth Ward raised a pole on Central-avenue, above Poplar-street, last night. A crowd of about 200 persons were present, who proceeded to or-ganize by the appointment of C. B. Eaton as President, Joseph B. Cox as Vice-President and James Parker, jr., as Secretary. Ad-dresses were delivered by Oliver Brown, Chas. Loomis, Jacob Wolf, Thomas A. Lo-gan and D. J. Toohy, after which those as-sembled dispersed.

DESPERATE AFFRAY IN DELHI TOWNSHIP,-John Rossiter became involved in a difficulty yesterday afternoon, some place in Delhi Township, a few miles from this city, during which the latter drew a knife and inflicted several severe, although not necessarily fatal wounds, upon his antagonist. The wounded man was properly cared for and it is thought will soon recover from the effects of his injuries, but Rossiter made his escape and has not since been seen.

VILLAINOUS ATTEMPT TO OUTRAGE THE VILLAINOUS ATTEMPT TO OUTRAGE THE PERSON OF A CHILD.—Samuel Nathan, who was arrested a day or two ago upon a charge of attempting to violate the person of a child, was examined before Judge Lowe, yesterday morning, and committed in default of bail, in the sum of \$1,000, for his appearance before the Court of Common Pleas. The girl is but six years of age, and the case in detail is too disgusting to be related. The story of the child is positively nauseating, and could not have been manufactured by her, we think, under any circumstances.

DRAMATIC ON-DIT .- It is said that Mr. Ellsler, of Wood's Theater, has engaged Charlotte Crampton as leading woman for that establishment during the coming seaon. We earnestly hope this rumor may rom the idiosyncrasies of her earlier life as to be contented to remain in one place for six months. heats, best three in five, and it was thought the race would be closely contested, but all parties interested were disappointed.

The nags ran two heats only, and as both were alike, we give the first as follows:

The borses got an even start, but "Confidence" broke almost immediately after getting the word. His driver quickly drew him to work again, and went to the first turn two lengths in the lead, which he gradually increased up the back-stretch, until he had, at the half-mile pole, a gap of double the distance.

at the half-mile pole, a gap of double the dis-tance.

It was evident that "Cons Millar" could not win the heat, and although he followed at a steady pace, he was not able to tackle his more fleet-foated competitor, which, with an advantage of fully six lengths, crossed the score in 2:50%.

There was no betting whatever, and after the second heat, which was made in the same time as the first, the bay was drawn. We apply the standard of the same time as the following

The project of heating the City Buildings was talked of, but no definite action taken in regard to the matter. There seemed, however, a decided aversion to steam. It was proposed that the Board take time some day to examine the different modes of heating large buildings. large buildings.

cleaning the streets, for three years, was called up.

Engineer Gilbert suggested that action be further delayed. He said that among the bidders was Mr. Longley, the proprietor of a street-sweeping machine, and he thought the Board ought to witness the operations of the machine, and put it to a thorough test before awarding the contracts.

Mr. Kiersted said that he was at first disposed to get clear of the business as soon as possible, but the more he thought of it the more he was satisfied the Board should proceed with great caution. Formerly the

The Memory of the Late Chas. C. Brown To the Editors of the Daily Press;

The Memory of the Late Chas. C. Brewne. To the Editors of the Daily Press:

The untimely death of the gentleman whose name forms the caption of this notice, has shrouded the hearts of his numerous friends and intimata acquaintances in gleon and sorrow.

The writer of this, who knew him, and knew him well, prompted by personal esteem, and the kindred feeling of surrounding friends, can but offer to his cherished memory this tribute. Among his associates be was noted for the nobleness of his conduct, equanimity of temper, and delicate regard for the feelings of others. His generosity knew no bounds, save his shifty to bestow. His charities began not with himself, but were prompted by the dictates of a sympathixing heart, to assuage the miseries and misfortunes of others. Those who knew him loved him for his amiable and kindly nature, his magnanimity and social virtues, his sense of justice and appreciation of all that was rained and meritorious. To these high qualities were added the adornments of a superior education and culture—endowments that in one more pretentious would have rendered him distinguished in one so ments that in one more pretentious would have rendered him distinguished in one so young. His qualities of head and heart en-deared him to us with more than ordinary attachment, for he was ever ready to forgive and forget the faults of others, and swift in making amends for even imaginary wrongs committed.

while this was being written, a friend beside me was handed a letter from the brother
of the deceased, announcing the melancholy fact that the shock of mournful intelligence has so crushed his bereaved father
that his family and friends fear that he will
not recover from his stricken condition.
Old age and reverse of fortune had already
weighed heavily upon him, when the sad
fate of his son filled his cup of sorrow, and
bowed him to the earth. Surely, the ways
of Providence are mysterious, and time
alone can solve the problem. "May the
whole story be told"—then, and only then,
will "end this sad eventful history."

For the benefit of the members, he had made a careful survey of his (Eastern) District, and made an estimate of the actual cost of keeping it clean. He found that it would require a force of fifteen scrapers and the correspondent writes to the Leavenworth (K.T.) Times from Colorado, on the 16th inst., as follows:

I arrived here to-day, after having spent fifty-seven days in journeying over and explaining the Smoky Hill Route. The train with Mr. Green is encamped on Squirrel Creek, about seventeen miles from this piece, and all in good health. I have, however, to record the loss of one member of the expedition—Mr. Hodgson—who was killed by the Kiowa Indians, near the point where the tion—Mr. Hodgson—who was killed by the Kiowa Indians, near the point where the Smoky Hill Route is crossed by Fremont's trail. Mr. Green was absent from the camp, with fifteen men, putting in order some crossing we had passed the previous day. Four Indians suddenly rushed upon those that had been left behind as guards. They attacked a German by the name of Henry, who defended himself manfully for five minutes with a bag of buffulo chips, and rooted who defended himself manfully for five minutes with a bag of buffalo chips, and rooted

with their spears, and took his scalp. They
then left, driving off eighteen of our cattle.
We returned about an hour afterward, and
upon perceiving the bloody traces of their depredations, mounted our six horses and slarted

The distance from Leaven-worth to Denver is 614 miles, and to Colo-rado 664 miles. The whole road is good. There are less than ten miles of sand on the whole route. Latest from Texas. Washington, August 31.—New Orleans dates of Tuesday last are received, containing Texas news. New events were daily occurring in various parts of that State, adding considerably to the excitement already existing there. Among other things it is stated that a man named Pierce had been arrested on a charge of being concerned in the burning of the town of Henderson, and that the proof is almost positive against him. The paople are driving from the upper pact of the State every person in the least suspected of Abolitionism. The town of Mr. Vernon, has been destroyed by incombining the control of the state of has been destroyed by incendiaries, one of whom has been caught and hung. A plan to burn Salphur Springs had been

discovered. A slave negro preacher ac-knowledged that he and others had sevapart a certain time to burn all the dwellings in the place, commis other depredations, and then, in case they could not whip out the whites, they were to take all the horses they could lay their hands on and fly to the Indian Nation.

Fram Washington. Washiseron, August 31.—It is ascertained that the Administration has no more official information an Mexican affairs than is already known to the public through the newspapers. The dispatching of vessels to the Gulf is

It is probable that Minister McLone with return to Vera Crez, in accordance with a desire expressed in different quarters. New York, August St.—This body, embracing the eight principal lines in the country, has been in session for several days in this city. The business transacted was of no public interest except in reference to the subject of an overland line to California. On this there was, with one exception, a unanimous vote that it is inexpedient to make any bid for the contract authorized by the last session of Congress. It is greatly to be regretted that this association, controlling as it does all the talegraph interests of the country, should not have edopted measures to carry out a project second only in importance to a railroad to the Pacific, and it is to be hoped that a matter of so much interest to the mercantle world, as well as the Federal Government, may not be suffered to fall into disrepute.
